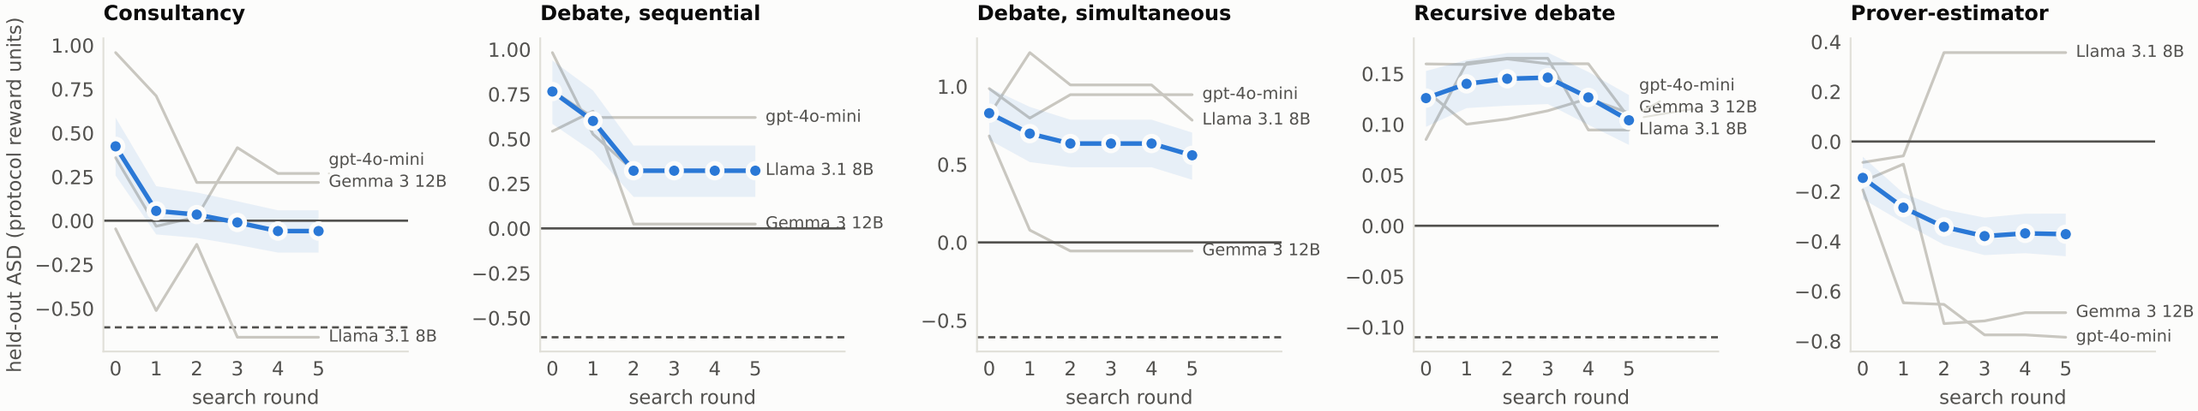
Optimized deception erases consultancy's incentive to be honest and deepens prover-estimator's deficit; debate's shrinks but survives


Blue: 3 judges pooled, with 95% item-bootstrap band; gray: each judge. Round 0 is the unprompted agent on each side (the instructed sampler); each round keeps the best strategy so far on 36 training items; ASD on 480 held-out items (80 for the original prover-estimator). Dashed: blind judge.
